

The Wilson FROM UPRIGHT FRAMEWORKS

2,500sf basic plan

Up to 95% better thermal efficiency compared with traditional construction

Classic New England looks, with plenty of room for all.

2,500 square feet – 1,500 square feet on the ground floor and 1,000 square feet on the second floor. Price listed includes 8' ceilings in the main sections, with 9' 6" ceilings in the bump-outs. Ceiling heights can be raised.

We are happy to explore ways to further tailor this design to meet your specific tastes.
